

Jose David Alcaraz Zapata

Frontend Engineer • Tech Lead • Illustrator & Visual Artist

from Medellín, Antioquia, Colombia 🇨🇴

Profile

Electronic engineer with 11+ years of experience in frontend dev. Passionate about learning, teaching and solving problems through technology and art.

As a **developer, tech leader, and university professor**, I've had the chance to work with multicultural teams and connect with people from all over the world, across companies in Colombia and Spain.

I value learning, good company and sharing ideas with the world. I'm especially drawn to collaborative environments that aim to positively impact others' lives. Illustration, graphic design, musical composition, swimming and astronomy are also important parts of my life.
